

# The Total Economic Impact™ Of BMC Remedy-As-A-Service

FORRESTER®

Through four customer interviews and data aggregation, Forrester concluded that Remedy-as-a-Service has the following three-year financial impact.

## VOICE OF THE CUSTOMER

“We didn’t have an impact view of what changes were being made in our systems before Remedy. Now that we track every change we make in our applications and hardware, we reduced the number of incidents by 80% and the time to resolve these incidents from six to eight hours down to about two hours.”

## THREE-YEAR CASH FLOW

“The biggest benefit that we received was that our techs were able to be mobile. They didn’t have to be tethered to desktops or laptops to get their service tickets. Before, they were always constantly going back to their desk to get their list of what was going on [at their job sites].”

*Systems administrator, education*
