

WHAT WILL YOU BUILD WITH REAL-TIME IMS ANALYTICS?

Real-time analytics drive real-time decisions

If you had real-time IMS analytics, you could:

PREVENT SECURITY BREACHES

Real-time IMS data + SIEM tools = immediate threat detection

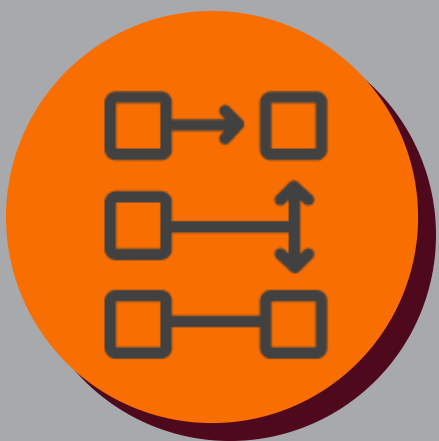

FIND ANOMALIES AND PREVENT PROBLEMS

Real-time analytics alerts help you prevent slowdowns and outages

AVOID DELAYS AND OVERHEAD

Send data to analytics engines and SIEM applications with no impact to production systems.

EXTRACT ONLY THE DATA YOU NEED

Two-phase intelligent filtering delivers the exact data you need

DRIVE REVENUE THROUGH INSTANT TARGETED MARKETING

Offer related products and services to your customers during transactions
