DELIVERY METHOD

- » Web-based Training (WBT)

COURSE DURATION

- » 4 Hours

PREREQUISITES

- » NA

RECOMMENDED TRAININGS

- » NA

Course Overview

BMC Helix Digital Workplace offers two applications, Digital Workplace and Digital Workplace Catalog. Digital Workplace Catalog is an enterprise app store solution designed to be the center of your digital workplace. This application integrates with external fulfillment systems through service connectors to enable communication between the catalog application platform and the different fulfillment systems.

In this online training, students will learn about the basic concepts and benefits of Digital Workplace Catalog. They also learn about catalog user roles, services, workflows, bundles, banners, and much more. Step-by-step simulations are designed to guide students with performing the actions required to successfully perform their job.

Target Audience

- » Digital Workplace Catalog Administrator

Learner Objectives

- » Explain Digital Workplace
- » Explain Digital Workplace Catalog and its basic concepts
- » Explain Digital Workplace Catalog architecture at high level
- » Define key responsibilities for various Digital Workplace Catalog roles
- » Describe the BMC Digital Workplace and Catalog Interfaces
- » Describe Service Catalog items
- » Explain how to create a basic service
- » Review the catalog profile, service level agreements, and add cost adjustments to services
- » Explain entitlements for end-user service consumption
- » Describe the Digital Workplace unified catalog
- » Explain bundles and banners
