- » ITSM Application Administrators

### PREREQUISITES

- » *BMC Helix ITSM 19.X: Fundamentals Administering – Part 1*
- » *BMC ITSM 18.X: Fundamentals Administering – Part 1 (WBT)*

## Course Overview

BMC Helix ITSM is a powerful, industry leading service management platform and fueling your IT transformation with intelligent, people-centric user experiences that helps you work smarter. BMC Helix ITSM streamlines and automates the processes around IT service desk, asset management, and change management operations. It also enables you to link your business services to your IT infrastructure to help you manage the impact of technology changes on business and business changes on technology — in real time and into the future

This course provides the application administrators with the concepts and hands-on experience to incorporate best practices when administering the BMC Helix ITSM applications. Using a workshop environment, group discussions, and scenario-based guided lab exercises, participants analyze, determine, and perform the necessary steps to administer BMC Helix ITSM applications to support the corresponding business processes.

**Note:** This course does NOT include instruction on configuring or using Smart IT.

**IMPORTANT:** Included in this course is the following examination: **BMC Certified Associate: Helix ITSM 19.x Online Exam**. Taking the exam and pursuing certification is optional, however all students enrolled for this course are automatically enrolled for the exam. You will have one attempt to pass the exam. No retakes will be offered. Those who pass will receive the title of **BMC Certified Associate: Helix ITSM 19.x**.
