Modality	Duration	Applicable Versions	Target Audience
Online – AI-Proctored	2 Hours	BMC AMI Cloud 4.2,4.3	<ul style="list-style-type: none"> System Administrators System Programmers Storage Administrators

Purpose of Exam

BMC AMI Cloud is a suite of products built on a scalable, secure, and robust platform that you can use to accelerate your data-led journey to the cloud.

Mainframe data is mission-critical in the world's largest enterprises. Our platform provides end-to-end mainframe data management. The BMC AMI Cloud Data platform consolidates the functionality of multiple storage, backup, and tape management products into a single, software-defined secondary data management solution, eliminating the need for physical and virtual tape libraries.

The BMC AMI Cloud 4: Management Server Installation Exam will validate the technical competencies needed to install the BMC AMI Cloud Management Server. This exam covers both types of installations, zCX and Linux.

This exam is part of the BMC AMI Cloud Implementation Certified Specialist.

Note: In addition to English, the exam is available in Chinese, French, German, Italian, Japanese, Korean, Portuguese, and Spanish.

Skills Tested

Participants will be tested on their knowledge of the following:

- Verify the AMI Cloud Management Server installation prerequisites
- Prepare for BMC AMI Cloud Management Server installation
- Install BMC AMI Cloud Management Server on Linux
- Install BMC AMI Cloud Management Server on zCX
- Perform post-install configurations

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Prerequisites

- BMC AMI Cloud Certified Associate

Recommended BMC Software Courses to Prepare for the Certification

The following course, offered by BMC Education Services, prepares the participants to take the BMC AMI Cloud 4: Agent Installing Exam and improve their knowledge and skill level to help build proficiency with the solution:

- BMC AMI Cloud 4: Management Server Installation (Workshop)

Recommended Knowledge/Skills

A good working knowledge of z/OS® and its implementation and administration. Familiarity with Linux commands and S3 storage is also required.

Getting Started

Take the recommended courses for the exam.

Step 1. Register and pay for the exam.

Step 2. Study and prepare for the exam.

Step 3. Follow the instructions in your confirmation/registration email received after step 1.

Step 4. Take and pass the exam.

Step 5. Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.

Examination Details

- Exam is an online AI-proctored exam.
- Further details and terms and conditions are available in the [BMC Certifications Program Guide](#).

Additional Recommended Resources to Study

- BMC AMI Cloud product documentation
- BMC AMI Cloud communities

Recommended Experience

- Minimum 3 years of experience working with BMC AMI Cloud products.

Retake Policy

- Participants who fail the exam make another attempt after waiting one week (7 days).
- Participants get to take up to 2 attempts per purchase.
- Participants purchase the exam again after 2 failed attempts.

Exam Registration

Choose from the following options to register for a BMC Education Services Exam:

- Register online for BMC Software product exam at: www.bmc.com/education
- Contact your **BMC Education Advisor** for help with registration
