

BMC AMI Command Center for Db2® 13.x: Fundamentals for Utility Management (WBT)

COURSE ABSTRACT

COURSE CODE

- » ADDB-CSUM-F131

APPLICABLE VERSIONS

- » BMC AMI Command Center for DB2® 12.1 and 13.1

DELIVERY METHOD

- » Web-based Training (WBT)

COURSE DURATION

- » 1 Hour

PREREQUISITES

- » BMC AMI Command Center for DB2® 13.x: Fundamentals Using (WBT)

RECOMMENDED TRAININGS

- » NA

Course Overview

BMC AMI Command Center for Db2® is a web-based interface to access and manage Db2 databases, data, and custom BMC Db2 applications. Along with providing an intuitive graphical user interface to quickly access database information, it offers secure, role-based access levels to data and actions that can be performed on data.

This course is designed to take you through the utility management features in BMC AMI Command Center for Db2. Learn to set up the BMC AMI utility management view and manage criteria, exceptions, schedule, and duration settings for utilities. Additionally, you will learn to add a SmartSwitch view to manage rules, add a utility status view and determine which utilities to terminate using BMC AMI Command Center for Db2.

Target Audience

- » Application Developers
- » Database Administrators

Learner Objectives

- » Explain the steps to add a utility management view.
- » Describe how to add and manage criteria settings.
- » Describe how to add and manage exception settings.
- » Describe how to add and manage schedule settings.
- » Describe how to add and manage durations settings.
- » Explain the steps to deploy and mirror the utility management settings
- » Explain the steps to add and manage rules from the SmartSwitch view.
- » Explain how to deploy and mirror SmartSwitch rules.
- » List the steps to add a utility status view.
- » Explain how to terminate utilities.

Course Chapters

Chapter 1: Setting Up BMC AMI Utility Management View

- » BMC AMI Utility Management Overview
- » Adding a BMC Utility Management View
- » Managing Criteria Settings
- » Adding Exception Settings
- » Managing Exception Settings
- » Adding Duration Settings
- » Managing Duration Settings

- » Adding Schedule Settings
- » Managing Schedule Settings
- » Adding Duration Settings
- » Managing Duration Settings
- » Deploying Utility Management Settings
- » Mirroring Utility Management Settings

Chapter 2: Managing Rules Using SmartSwitch

- » SmartSwitch Overview

- » Adding a SmartSwitch View
- » Managing SmartSwitch Rules
- » Deploying SmartSwitch Rules
- » Mirroring SmartSwitch Rules

Chapter 3: Displaying BMC Utilities

- » Creating a Utility Status View
- » Terminating Utilities
- » Simulation: Adding Utility Management View and Duration Setting for a Utility
