

BMC AMI Data for Db2 13: Db2 Administration Concepts Exam

[Learning Path >](#)

Certification Code: **ADDB-DBAC-F131-EXA**

Modality

Online – AI-Proctored

Duration

2 Hours

Applicable Versions

BMC AMI Database
Administration for Db2
13.1

Target Audience

- Database Administrators
- System Programmers

Purpose of Exam

BMC AMI Database Administration for Db2 provides an integrated set of tools for Db2 database administration, including change management, catalog navigation, data movement, backup, recovery, and utility operations. The solution helps DBAs manage schema and data changes, maintain database availability, reduce operational risk, and improve productivity across enterprise Db2 environments.

The **BMC AMI Data for Db2 13: Db2 Administration Concepts Exam** validates the technical skills required to understand Db2 object administration concepts, navigate the Db2 catalog, and use BMC AMI Data for Db2 interfaces to manage and modify database structures.

This exam is part of the BMC AMI Database Administration for Db2 Certified Associated track.

Note: In addition to English, the exam is available in French, German, Italian, Japanese, Korean, Portuguese, Simplified Chinese, and Spanish.

Skills Tested

Participants will be tested on their knowledge of the following:

- Use BMC AMI Catalog Manager to manage Db2 objects and data
- Execute online and batch commands for Db2 administration
- Define and apply migration profiles and change rules
- Analyze, migrate, compare, and synchronize Db2 environments
- Manage work IDs, worklists, logs, and recovery operations

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- BMC AMI Catalog Manager for Db2® 13.x: Fundamentals Using (WBT)
- BMC AMI Change Manager for Db2® 13.x: Fundamentals Using (WBT)

Recommended Knowledge/Skills

- Core Mainframe Skills (Basic z/OS awareness, log on to the Mainframe using TSO/ISPF, navigate ISPF panels, understand PF keys and basic commands)
- JCL & Job Execution (Ability to read and understand basic JCL JOB / EXEC / DD statements, Job return codes (RC), MAXCC)
- JES & Spool Handling (Access job output in JES spool, identify job status, read basic job output messages)

Getting Started

Take the recommended courses for the exam.

Step 1. Register and pay for the exam.

Step 2. Study and prepare for the exam.

Step 3. Follow the instructions in your confirmation/registration email received after step 1.

Step 4. Take and pass the exam.

Step 5. Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.

Examination Details

- Exam is an online AI-proctored exam.
- Further details and terms and conditions are available in the [BMC Certifications Program Guide](#)

Additional Recommended Resources to Study

- BMC AMI Data for Db2 product documentation

Recommended Experience

- 0-1 year of job experience in BMC AMI Data for Db2 products

Retake Policy

- Participants who fail the exam make another attempt after waiting one week (7 days).
- Participants get to take up to 2 attempts per purchase.
- Participants can purchase the exam again after 2 failed attempts.
