

BMC AMI Recovery for Db2® 13.x: Fundamentals Concepts (WBT)

COURSE ABSTRACT

COURSE CODE

- » ADDB-REDC-F131

APPLICABLE VERSIONS

- » BMC AMI Recovery for Db2® 12.1 and 13.1

DELIVERY METHOD

- » Web-based Training (WBT)

COURSE DURATION

- » 2 Hours

PREREQUISITES

- » NA

RECOMMENDED TRAINING

- » *BMC AMI Command Center for Db2® 13.x: Fundamentals Using (WBT)*

Course Overview

BMC AMI Recovery for Db2® provides different types of recovery, all of which recover objects to a consistent state with the minimal outage. This solution offers a family of products that provide powerful, comprehensive control over backup and recovery processes.

In this Web-based training course, you learn about solutions for BMC AMI Data for Db2. You also study the importance of these solutions for the rapid growth of the data-driven digital business. In this course, the learners will be familiarized with the concept and benefits of all the products in this solution.

This course also discusses the BMC AMI Recovery for Db2® products and various tools that help recovery in today's environment of massive data volumes, rapid transaction rates, and increased complexity.

Target Audience

- » Database Administrators

Learner Objectives

- » Understand the challenges with business data
- » Discuss the need for BMC AMI Data for Db2 solutions
- » Introduce the solution: BMC AMI Recovery for Db2®
- » Overview of the working of products
- » Get familiar with the architecture of products
- » List products available under the BMC AMI Recovery for Db2 solution
- » Review key features of all products
- » Review key benefits of all products

Course Modules

Module 1: Fundamentals of BMC AMI Recovery for Db2®

- » Discuss business challenges
- » Introduce BMC AMI Data for Db2 solutions
- » List various BMC AMI Data Solutions
- » Explain the key concept of BMC AMI Recovery for Db2®
- » List various products under the solution BMC AMI Recovery for Db2:
 - BMC AMI Recovery Manager for Db2, BMC AMI Recover for Db2, BMC AMI Check for Db2, BMC Application Restart Control, BMC AMI Command Center for Db2, BMC AMI Log Master for Db2, BMC AMI Copy for Db2, SNAPSHOT UPGRADE FEATURE (SUF)
- » State key features of BMC AMI Recovery for Db2®
- » Discuss key Benefits of BMC AMI Recovery for Db2®

Module 2: Getting into Recovery Management for Db2®

- » Discuss Recovery Management for Db2
- » Introduce the BMC AMI Recovery Manager for Db2 product
 - State the features of the product
 - Components of the product

- » Introduce the BMC AMI Recover for Db2 product
 - State the features of the product
 - Discuss BMC AMI Recover Operations and Jobs

Module 3: BMC AMI Check and Application Restart Control for Db2®

- » Introduce the BMC AMI Check for Db2 product
 - State the features of BMC AMI Check for Db2
 - Discuss the requirements of the product
 - Discuss the need for the product
 - List the benefits of the product
- » Learn about BMC AMI Application Restart Control products
 - List the benefits of the products
 - Discuss situations in which the product is used
 - List key features of the product

Module 4: BMC AMI Log Master and Copy for Db2®

- » Introduce the BMC AMI Log Master for Db2 product
 - Discuss the features of the product
 - Discuss key benefits of the product

- Discuss the concepts such as log scans, backing out transactions, automated drop recovery, etc.
- Tasks performed by the product
- » Introduce the BMC AMI Copy for Db2 product
 - Discuss the need and benefits of the product
 - Explain how the product work
 - Discuss key features of the product
 - Discuss key benefits of the product
- » Introduce SNAPSHOT UPGRADE FEATURE (SUF)
 - Explain the concept of Snapshot Processing
 - Discuss BMC Utilities with SUF
