PURPOSE OF SKILLS ASSESSMENT

Companies deploying and using BMC AMI Catalog Manager for Db2® 13.x realize full value only when their solution is effectively implemented and exercised. To ensure deployments and operations are performed to best practice standards, BMC provides technical training based on the current skill levels of product usage.

BMC AMI Catalog Manager for Db2® 13.x offers a Skills Assessment for Database Administrators (DBAs), System Programmers (SYSPROGs), and Application Developers. Customers and partners can take this assessment to evaluate their skills for key product areas before registering for any BMC AMI Catalog Manager for Db2® training. Based on the analysis of the result, BMC can suggest which training courses would be suitable to fill potential skill gaps. It is important to note that this skills assessment is not an exam and is not intended to test individuals. Instead, it serves as an overview of existing and missing skills to help students and teams pick the appropriate training. It is recommended that assessment takers do not prepare or retake the assessment to avoid receiving incorrect recommendations.

Reviewed Skills

The knowledge around the following topics is checked:

- › Features and benefits of Catalog Manager
- › Search and filter objects
- › DB2 commands, SQL commands
- › Browse and edit tables
- › Drop and recovery of objects from the Db2 catalog
- › Reporting, BATCH command
- › Plans, Packages, and Catalog Manager logs
- › Work with utilities

Getting Started

Step 1.

Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

Step 2.

Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.
