BMC AMI Data for Db2®: Ultimate Subscription

COURSE ABSTRACT

CURRICULUM CODE

» ADDB-ULT-SUBS

DELIVERY METHOD ⊕

» Subscription-based
- Web-based Training (WBT)
- Certification (CERT)
- Expert Coaching *(maximum of 6 hours annually; minimum scheduled appointment duration is 30 minutes)*

Subscription Overview

BMC AMI Data offers a complete and automated set of IBM® Db2® and IBM® IMS® solutions to optimize mainframe IMS transaction and data management.

BMC AMI Data for Db2® solution leverage automation and intelligence with fast and powerful data movement, migration, optimization, recovery, and compliance capabilities.

Using examples, demonstrations, and scenarios, the content of the online education subscription helps you learn how to safely manage and secure your data and deliver on providing a consistent and superior experience.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

Target Audience

» Database Administrators
» Developers
» Programmers
» Operators

Learner Objectives

» Understand how to run BMC AMI SQL Assurance for Db2 in the Jenkins automation server.
» Understand SQL management using BMC AMI Command Center for Db2.
