Course Overview

The BMC AMI DevX: z/OSMF Install for AMI Enterprise Common Components course guides you through the z/OSMF installation process for installing the BMC AMI Enterprise Common Component product.

It introduces you to IBM z/OSMF, which is an intuitive browser-based interface designed to enhance your product installation experience. This powerful tool helps simplify the installation process by streamlining various traditional tasks and automating others, making it easier and more efficient to manage all product installations.

In addition to English, the textual content of this course is available in Chinese (Simplified), French, German, Italian, Japanese, Korean, Portuguese (Brazil), and Spanish (Mexico).

Prerequisites

- BMC AMI Ops: z/OSMF Install for z/OS® Basics (WBT)
