Subscription Overview

BMC AMI Data offers a complete and automated set of IBM® Db2® and IBM® IMS® solutions to optimize mainframe IMS transaction and data management.

BMC AMI Data for Db2 solutions leverage automation and intelligence with fast and powerful data movement, migration, optimization, recovery, and compliance capabilities.

BMC AMI Data for IMS enables you to efficiently manage complex IMS environments and keep IMS available for processing virtually 24x7.

Using videos, this subscription gives you an overview of the next evolution of mainframe data management—built for the Autonomous Digital Enterprise to help you manage your data safely and securely and keep applications running smoothly.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

Target Audience

- » Database Administrator
- » Programmer

Learner Objectives

- » Get familiar with BMC AMI Data for Db2
- » Learn about DevOps, Database, and Db2 for z/OS in BMC AMI DevOps for Db2
- » Get familiar with BMC AMI Data for IMS
- » Get familiar with BMC AMI Database Advisor for IMS
- » Learn how to get started with database integrity for IMS
- » Learn how to implement ETA without ETO using BMC AMI Extended Terminal Assist for IMS
- » Learn how to get started with BMC AMI Pointer Checker for IMS
- » Learn how to use the JCL Generation Wizard and the List History feature in BMC AMI Recovery Advisor for IMS
- » Introduction and using DSAD Manager plus for DB2
- » Learn how to convert DBD and implement partitioned DB in BMC Partitioned Database Facility for IMS
