## Purpose of Skills Assessment

BMC AMI Cloud is a suite of products built on a scalable, secured, and robust platform that you can use to accelerate your data-led journey to the cloud.

Mainframe data is mission-critical in the largest enterprises worldwide. Our platform provides end-to-end mainframe data management. The BMC AMI Cloud Data platform consolidates the functionality of multiple storage, backup, and tape management products into a single, software-defined secondary data management solution that eliminates the need for physical and virtual tape libraries.

The skills assessment is not an exam meant to test individuals but to provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn't prepare and retake the assessment to avoid receiving incorrect recommendations.

## Reviewed Skills

The knowledge and understanding around the following topics are checked:

- Features and architecture of the BMC AMI Cloud
- Monitoring BMC AMI Cloud actions from the mainframe
- High-availability configurations
- Performance tuning
- Disaster recovery procedure
- BMC AMI Cloud data transform solution
- BMC AMI Cloud CDS Solution
- Cloud dataset characteristics
- CDS components

## Getting Started

### Step 1.

Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

### Step 2.

Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.

## Exam Registration

Choose from the following options to register for a BMC Education Services Exam:

- Register online for the BMC Software certification exam at: [www.bmc.com/education](http://www.bmc.com/education)
- Contact your **BMC Education Advisor** for help with registration
