Online – AI-Proctored	2 Hours	BMC AMI Ops Automation 8.0, 8.1, 8.2, 8.3	<ul style="list-style-type: none"> System Programmers Automation Engineers Operators

Purpose of Exam

BMC AMI Ops Automation (BMC AMI OpsA) product is part of the BMC AMI Ops Automation for Data Centers solution. This product provides tools and applications to improve an operator's ability to maintain high system availability, helping minimize errors, improve productivity, and support problem determination and prevention.

Note: BMC AMI Ops Automation was formerly known as MainView AutoOPERATOR™.

The BMC AMI Ops Automation 8: Operating and Managing Exam will validate the technical competencies needed to use the operator's menu, Rules management, and define automation. This exam is part of the BMC AMI Ops Automation Certified Specialist.

Note: In addition to English, the exam is available in Chinese, French, German, Italian, Japanese, Korean, Portuguese, and Spanish.

Skills Tested

Participants will be tested on their knowledge of the following:

- Managing elements of Automation
- Rule Organization
- Apply Automation strategy
- Create a new Rule organization structure
- Use Rules Management Application
- Use Operator's menu

For detailed information on these topics, refer to the course abstracts for the recommended courses.

Prerequisites

- BMC AMI Ops Certified Associate

Recommended BMC Software Courses to Prepare for the Certification

The following course, offered by BMC Education Services, prepares the participants to take the BMC AMI Ops Automation 8: Operating and Managing Exam and improve their knowledge and skill level to help build proficiency with the solution:

- BMC AMI Ops Automation 8.x: Fundamentals Operating
- BMC AMI Ops Automation 8.x: Fundamentals Managing

Recommended Knowledge/Skills

A good working knowledge of z/OS® and its implementation and administration. Familiarity with system-monitoring tasks for an operator is also required.

Getting Started

Take the recommended courses for the exam.

Step 1. Register and pay for the exam.

Step 2. Study and prepare for the exam.

Step 3. Follow the instructions in your confirmation/registration email received after step 1.

Step 4. Take and pass the exam.

Step 5. Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.

Examination Details

- Exam is an online AI-proctored exam.
- Further details and terms and conditions are available in the [BMC Certifications Program Guide](#).

Additional Recommended Resources to Study

- BMC AMI Ops product documentation
- BMC AMI Ops communities

Recommended Experience

- Minimum 2 years of experience working with BMC AMI Cloud products.

Retake Policy

- Participants who fail the exam make another attempt after waiting one week (7 days).
- Participants get to take up to 2 attempts per purchase.
- Participants purchase the exam again after 2 failed attempts.
