Automation 6.1, 6.2,
6.3, 8.1, 8.2, and 8.3

Target Audience

- Operators

Purpose of Skills Assessment

Companies deploying and using BMC AMI Ops Automation also known as BMC AMI OpsA realize full value only when their solution is effectively implemented, operated, and administrated. To ensure automation and operations are performed to best practice standards, BMC provides technical training based on the current skill levels of product usage.

The **BMC AMI Ops Automation 8.x: Fundamentals Using Skills Assessment for Operators** is to be taken by customers and partners to check their skills for key product areas **BEFORE** registering for any BMC AMI Ops Automation training. Based on the result analysis, BMC can provide a recommendation on which training courses would fill potential skill gaps. The skills assessment is not an exam and is not meant to test individuals but to provide users and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn't prepare and also not retake the assessment to avoid receiving incorrect recommendations.

Note: BMC AMI Ops Automation was formerly known as MainView AutoOPERATOR™.

Reviewed Skills

The knowledge around the following topics is checked:

- Access BMC AMI Ops Automation
- Full-screen mode to manage and monitor Rule-based automation
- Windows mode to manage and monitor Rule-based automation
