Modality	Duration	Applicable Versions	Target Audience
Online – Non-Proctored	2 Hours	BMC AMI Ops Automation 8.1, 8.2, and 8.3	<ul style="list-style-type: none"> System Programmers Operator

Purpose of Skills Assessment

Companies deploying and using BMC AMI Ops Automation also known as BMC AMI OpsA realize full value only when their solution is effectively implemented and exercised. To ensure deployments and operations are performed to best practice standards, BMC provides technical training based on the current skill levels of product usage.

The **BMC AMI Ops Automation 8.x: Fundamentals TOM Skills Assessment for Operators and System Programmers** is to be taken by customers and partners to check their skills for key product areas **BEFORE** registering for any BMC AMI Ops Automation -TOM training. Based on the result analysis, BMC can provide a recommendation on which training courses would fill potential skill gaps.

The skills assessment is not an exam and is not meant to test individuals but to provide students and teams with an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn't prepare and retake the assessment to avoid receiving incorrect recommendations.

Note: BMC AMI Ops Automation was formerly known as MainView AutoOPERATOR™.

Reviewed Skills

The knowledge and understanding around the following topics is checked:

- User interfaces
- Total Object Management (TOM) considerations
- TOM object types
- TOM commands and schedule dependencies
- Definition bases and variables in TOM
- Parameter Member configurations
- TOM Utilities

Getting Started

Step 1.

Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

Step 2.

Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.

Exam Registration
