BMC AMI OPS

BMC AMI Ops Automation: Ultimate Subscription

Subscription Code: AOAU-ULT-SUBS

Modality
- Web-based Training (WBT)
- Instructor-led Training (ILT)
- Certification (CERT)
- Expert Coaching (maximum of 6 hours annually; minimum scheduled appointment duration is 30 minutes)

Target Audience
- Administrators
- Operators
- System Programmers

Subscription Overview

BMC AMI Ops Automation (also referred to as BMC AMI OpsA) is a BMC Software product that provides tools and applications to automate system events and improve an operator's ability to provide high system availability. The product was formerly known as MainView AutoOperator.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of BMC AMI Ops Automation and details the use of this solution to identify and automate various workflows and day-to-day events for better performance.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

Learning Objectives

- Create and manage dashboards, data views, examine alarms, investigate events, evaluate system status, view historical data, and generate analytical insights
- Navigate through the TSO/ISPF and web browser interfaces, customize views, generate alarms, investigate events, evaluate system status, and view historical data
- Learn various Operator Workstation, General Operations, and Basic Automation activities
- Learn how to create and manage Rules for better performance
- Understand how Total Object Manager (TOM) infrastructure helps define a variety of objects in a z/OS sysplex environment
- Understand how Total Object Manager (TOM) infrastructure helps manage a variety of objects in a z/OS sysplex environment
- Understand how to automate workflow using Rules and EXECs

Virtual Lab

- Contact the Training Coordinator for BMC Training in your organization or **education@bmc.com** for assistance

Offerings

Course Name	Description	Release Date (MM/YY)	Duration (Minutes/Hours/Days)	Delivery Method (WBT, ILT, ASP, SPT, Exam)
BMC AMI Ops Infrastructure 7.x: Fundamentals Using the User Interface (WBT)	This course is designed to introduce you the architecture, key components and features of the BMC AMI Ops UI.	08/22	02:00 Hours	WBT
BMC AMI Ops Automation 8.x: Fundamentals Using EXECs (WBT)	This course will help System Programmers (Application Programmers), and Administrators (System/ technical system/storage Administrators) understand EXECs and what one can achieve using them.	12/22	01:00 Hour	WBT
BMC AMI Ops Automation 8.x: Fundamentals Managing REXX EXECs (WBT)	This course will help System Programmers to understand the basics of REXX EXECs like datatypes, statements, instructions, and functions. This course will also introduce them to EXEC-related views in BMC AMI Ops Automation.	04/24	04:00 Hours	WBT
BMC AMI Ops Automation 8.x: Fundamentals Operating CICS® (WBT)	This course will help the learner understand how BMC AMI Ops Automation for CICS® can be used to invoke CICS® commands based on a particular event, issue ALERTs display for CICS® operational exceptions messages, capture messages from the CICS® transient data queue, and selectively send messages to a list of terminals.	03/24	02:00 Hours	WBT
BMC AMI Ops Infrastructure 7.x: Fundamentals Using	This course is essential for all those working in technical roles within a z/OS® environment. The course teaches the basics of BMC AMI Ops architecture, navigation through the TSO/ISPF and web browser interface as well as customizing the views for BMC AMI Ops.	02/23	3 Days	ILT
BMC AMI Ops Automation 8.x: Fundamentals Operating	This course will help understand the basic sets of activities, such as Operator Workstation, General Operations, and Basic Automation. It will also help Operators (System/Mainframe Operators), System Programmers, and Administrators (System/Technical System/Storage Administrators) understand the menu options.	02/23	2 Days	ILT
BMC AMI Ops Automation 8.x: Fundamentals Managing	This course provides the essential knowledge required to work on Total Object Manager (TOM) which provides a basic infrastructure that manages a variety of objects in a z/OS	02/23	2 Days	ILT

	sysplex environment. The course teaches how to manage individual objects or grouped together in sets, set up calendar dependencies, associate pre-start/stop, and post-start/stop commands, and use the layering wizard along with the various TOM utilities.			
BMC AMI Ops Automation 8.x: Fundamentals Using TOM	This course provides the essential knowledge required to work on Total Object Manager (TOM) which provides a basic infrastructure that manages a variety of objects in a z/OS® sysplex environment. The course teaches how to define individual objects or grouped together in sets, set up calendar dependencies, associate automation commands with an object that can be scheduled before TOM starts an object, and also define multiple systems on which an object is eligible to be started.	02/23	2 Days	ILT
BMC AMI Ops Automation 8.x: Fundamentals Managing TOM	This course provides the essential knowledge required to work on Total Object Manager (TOM) which provides a basic infrastructure that manages a variety of objects in a z/OS sysplex environment. The course teaches how to manage individual objects or grouped together in sets, set up calendar dependencies, associate pre-start/stop, and post-start/stop commands, and use the layering wizard along with the various TOM utilities.	02/23	3 Days	ILT
BMC Certified Associate: AMI Ops Automation 8.x for Operators and System Programmers Online Exam	The BMC Certified Associate: AMI Ops Automation 8.x for Operators and System Programmers Online Exam will validate the technical competencies needed to understand and use the automation processes under the BMC AMI Ops Automation solution.	03/23	02:00 Hours	Exam - CERT
