

BMC Certified Associate: AMI Ops for CICS® 7.x for System Programmers Online Exam

[Learning Path >](#)
Certification Code: AOI-CERT-CISP701-CA

Modality	Duration	Applicable Versions	Target Audience
Online – Non-Proctored	2 Hours	BMC AMI Ops for CICS 7.0, 7.1, 7.2, and 7.3	<ul style="list-style-type: none"> System Programmers

Purpose of Exam

BMC AMI Ops for CICS® is a fast, intuitive performance management monitoring solution with intelligent, proactive automation for managing traditional CICS and parallel processing environments.

BMC AMI Ops for CICS® enables you to tune, manage, and automatically take actions before disruptive and highly complex digital business workloads impede the smooth flow of business. As a result, you can quickly and easily troubleshoot problems, track critical metrics on mainframe performance, and prevent service disruptions with automated recovery and notification tasks.

The BMC Certified Associate: AMI Ops for CICS® 7.x for System Programmers Online Exam will validate the technical competencies needed to understand and use the processes under the BMC AMI Ops for CICS® solution.

Skills Tested

Participants will be tested on their knowledge of the following:

- Understand the CICS Architecture
- List the user interfaces
- List the components of BMC AMI OpsM for CICS
- Define and navigate views and Easy menus in BMC AMI OpsM for CICS
- Locate information about tasks, dynamic storage usage, and input and output
- Display System Initialization Table parameters
- Execute commands from within resource and operation views
- Access and locate information about workloads
- Discuss the CICS region views
- Locate information about the region problems
- Locate historical data
- List the task views
- Diagnose task problems and manage tasks
- List the monitor views
- Start a monitor
- Understand resource management in CICS
- Discuss performance reports

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Prerequisites

- NA

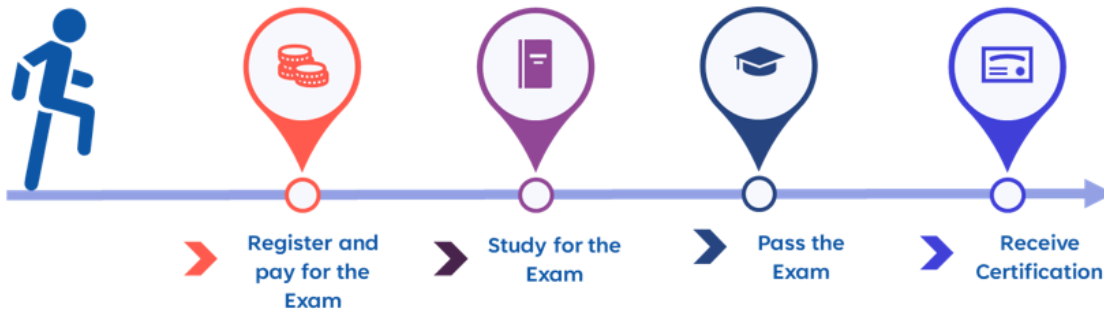

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- BMC AMI Ops Monitor for CICS® 7.x: Fundamentals for Resources and Operations (WBT)
- BMC AMI Ops Monitor for CICS® 7.x: Fundamentals for Workloads and Historical Transactions (WBT)

Getting Started

- Step 1.** Take the recommended courses for the Certified Associate learning path. Purchase the required exam (attempts)
- Step 2.** Study and prepare for the exam. BMC recommends 6 weeks and also a minimum of [3] months experience with the product before taking the exam.
- Step 3.** Take and pass the exam
- Step 4.** If you have failed the exam, purchase another exam attempt, and start at step 2.

Examination Details

- Exam is an online exam.
- Further details and terms and conditions are available in the [BMC Certifications Program Guide](#) and [BMC Education Certification Policy](#).

Additional Recommended Resources to Study

- BMC AMI Ops for CICS® 7.x Product Documentation
- BMC AMI Infrastructure 7.x Product Documentation
- BMC AMI Ops Communities

Recommended Experience

- Minimum 3 months experience in automation using BMC AMI Ops for CICS solution.

Retake Policy

- Participants who fail the Certification exam may register and pay for an exam then make another attempt after waiting one week
- Participants are limited to 4 attempts per year

Exam Registration

Choose from the following options to register for a BMC Education Services Exam:

- Register online for BMC Software certification exam at: www.bmc.com/education
