

# BMC AMI Ops Infrastructure 7: Using Concepts Exam

[Learning Path >](#)

Exam Code: AOIN-ZOSU-F700-EXA

Modality	Duration	Applicable Versions	Target Audience
Online – AI-Proctored	2 Hours	BMC AMI Ops Infrastructure 7.1 BMC AMI Ops User Interface 3.0 BMC AMI Ops Insight 3.0	<ul style="list-style-type: none"> <li>System Administrators</li> <li>System Programmers</li> </ul>

## Purpose of Exam

BMC AMI Ops Infrastructure is an architecture that integrates BMC AMI Ops products with a common framework across z/OS systems. BMC AMI Ops User Interface is a web-based component hosted on z/OS that facilitates system monitoring. It enables you to examine the status of your systems, subsystems, and regions. BMC AMI Ops Insight helps you detect anomalies in your environment. It ingests your historical data and uses machine learning to understand normal behavior for your systems.

The BMC AMI Ops Infrastructure 7: Using Concepts Exam will validate the technical competencies required to understand and use various interfaces to monitor systems across sysplexes and detect anomalies.

This exam is part of the BMC AMI Ops Infrastructure Certified Associate.

Note: In addition to English, the exam is available in Chinese, French, German, Italian, Japanese, Korean, Portuguese, and Spanish.

## Skills Tested

Participants will be tested on their knowledge of the following:

- Use BMC AMI Ops Interfaces like TSO, MainView Explorer, and AMI Ops User Interface
- Access different BMC AMI Ops products and navigate through views
- View Historical data from different time frames
- Display data from multiple systems
- Customize data in views to troubleshoot problems
- Access Alarm information and create alarms
- Detect and investigate events
- Create analytics dashboards to examine trends

## Prerequisites

- NA

## Recommended BMC Software Courses to Prepare for the Certification

The following course, offered by BMC Education Services, prepares the participants to take the BMC AMI Ops Infrastructure 7: Using Concepts Exam and improve their knowledge and skill level to help build proficiency with the solution:

- BMC AMI Ops User Interface 2: Using Concepts (WBT)
- BMC AMI Ops Insight 3: Using Concepts (WBT)
- BMC AMI Ops Infrastructure 7.x: Fundamentals Using (ILT)

## Recommended Knowledge/Skills

A good working knowledge of z/OS® and its implementation and administration. Familiarity with the BMC AMI Ops Infrastructure, BMC AMI Ops User Interface, and BMC AMI Ops Insight product is also required.

## Getting Started

Take the recommended courses for the exam.

**Step 1.** Register and pay for the exam.

**Step 2.** Study and prepare for the exam.

**Step 3.** Follow the instructions in your confirmation/registration email received after step 1.

**Step 4.** Take and pass the exam.

**Step 5.** Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.

## Examination Details

- Exam is an online AI-proctored exam.
- Further details and terms and conditions are available in the [BMC Certifications Program Guide](#).

## Additional Recommended Resources to Study

- BMC AMI Ops Infrastructure product documentation
- BMC AMI Ops User Interface product documentation
- BMC AMI Ops Insight product documentation
- BMC AMI Ops communities

## Recommended Experience

- Minimum 1 year of experience working with BMC AMI Ops products.

## Retake Policy

- Participants who fail the exam make another attempt after waiting one week (7 days).
- Participants get to take up to 2 attempts per purchase.
- Participants purchase the exam again after 2 failed attempts.

## Exam Registration

Choose from the following options to register for a BMC Education Services Exam:

- Register online for BMC Software product exam at: [www.bmc.com/education](http://www.bmc.com/education)
- Contact your **BMC Education Advisor** for help with registration
