

BMC AMI Ops: z/OSMF Install for AMI Ops Monitor for z/OS (WBT)

[Learning Path >](#)

Course Code: AOPI-MZOS-I605

Modality

Web-based Training (WBT)

Duration

5 Hours

Applicable Versions

- BMC AMI Ops Monitor for z/OS 6.5

Target Audience

- Administrators
- System Programmers

Course Overview

The BMC AMI Ops: z/OSMF Install for AMI Ops Monitor for z/OS course guides you through the installation of BMC AMI Ops Monitor for z/OS products using z/OSMF. This course includes the installation process for Common Utilities, AMI Common Code, Ops Common Code, and Ops Monitor for z/OS.

It introduces you to IBM z/OSMF, an intuitive, browser-based interface designed to enhance your product installation experience. This powerful tool simplifies the installation process by streamlining traditional tasks and automating others, making it easier and more efficient to manage all product installations.

In addition to English, the textual content of this course is available in French, French (Canada), German, Italian, Japanese, Korean, Portuguese (Brazil), and Spanish (Mexico).

Prerequisites

- BMC AMI Ops: z/OSMF Install for z/OS® Basics (WBT)

Recommended Trainings

- NA

Learning Objectives

- Describe the BMC Mainframe Common Installation System (OZI) installation
- Understand the installation process
- Discuss the efficiency of the z/OSMF installation
- List the BMC z/OSMF install objectives
- Describe the z/OSMF environment
- Discuss the z/OSMF terminologies
- Understand the process of installing the AMI Ops Monitor products
- Order the BMC AMI Ops Monitor for the z/OS product.
- Download and deploy Common Utilities PSI using the z/OSMF interface
- Download and deploy AMI Common Code PSI using the z/OSMF interface
- Download and deploy AMI Ops Common Code PSI using the z/OSMF interface
- Download and deploy AMI Ops Monitor for z/OS PSI using the z/OSMF interface
- Perform the configuration steps using EZConfig
- Verify the installation of the AMI Ops Monitor for z/OS, USS, and SysProg products

Course Modules

Module 1: Ordering BMC AMI OpsM for z/OS product and Installing Common Utilities

- z/OSMF Install Basics
- Features of the z/OSMF Install Process
- Benefits of the z/OSMF Install Process
- BMC Common Configuration Repository
- Steps for the BMC z/OSMF Installation
- Ordering Through the EPD Platform
- Selecting the Product on the z/OSMF Installed Products Tab
- Adding Product to the Order
- Removing the Product from the Order
- Reviewing the Order
- Compliance Agreement
- Order Confirmation
- Order Details for the Completed Order
- Copy the Server.XML
- Checklist to download the PSI
- IBM z/OSMF Specific Requirements
- z/OSMF Server Instance
- z/OSMF Desktop
- Software Management Window
- Add a new Portable Software Instance
- Downloading BMC Common Utilities PSI
- Deployments Panel
- New Deployment
- BMC Common Utilities PSI Deployment
- Deploying the BMC Common Utilities PSI
- Common Utilities Deployment Complete
- Common Utilities Workflow Task
- Performing Workflows for BMC Common Utilities
- Common Utilities Installation Complete

Module 2: Installing AMI Common and Ops Common Code

- Add a New PSI for AMI Common Code
- AMI Common Code PSI
- Downloading the AMI Common Code PSI
- Start a New Deployment
- Deployments Panel
- New Deployment for AMI Common Code
- Submit the Jobs
- Deploying the AMI Common Code PSI
- Job Status Complete
- AMI Common Code Deployment Complete
- AMI Common Code Workflow Task
- Perform Workflows for AMI Common Code PSI
- AMI Common Code Workflow Complete
- AMI Ops Common Code PSI
- Add a New PSI for Ops Common Code
- Downloading AMI Ops Common Code PSI
- New Deployment for AMI Ops Common Code
- Deploying the AMI Ops Common Code PSI

- AMI Ops Common Code Deployment Complete
- AMI Ops Common Code Workflow Task
- Perform Workflows for AMI Ops Common Code PSI
- Ops Common Code Workflow Complete

Module 3: Installing and Verifying the BMC AMI Ops Monitor for z/OS Product

- AMI OpsM for z/OS PSI
- Downloading AMI Ops Monitor for z/OS PSI
- Add a New PSI for OpsM for z/OS
- New Deployment for Ops Monitor for z/OS
- Deploying AMI Ops Monitor for z/OS PSI
- OpsM for z/OS Deployment Complete
- Performing the workflows for AMI Ops Monitor for z/OS PSI
- OpsM for z/OS Workflow Completed
- Customize the OpsM for z/OS Product
- Product Configuration
- EZCONFIG View
- Performing Additional Configuration using EZCONFIG
- Product Verification
