

# BMC AMI Storage Reporting 8.x: Fundamentals Skills Assessment

ABSTRACT

[Learning Path >](#)

Code: AOST-SKILL-FRE801

**Modality**

Online Exam

**Duration**

2 Hours

**Applicable Versions**BMC AMI Storage Reporting  
8.1**Target Audience**

- System Programmers
- Storage Administrator

## Overview

Companies deploying and using BMC AMI Storage Reporting realize full value only when their solution is effectively implemented, operated, and administrated. To ensure data collection and reporting are performed to best practice standards, BMC provides technical training based on the current skill levels of product usage.

The BMC AMI Storage Reporting 8.x: Fundamentals Skills Assessment is to be taken by customers and partners to check their skills for key product areas BEFORE registering for any BMC AMI Storage training. Based on the result analysis, BMC can provide a recommendation on which training courses would fill potential skill gaps. The skills assessment is not an exam and is not meant to test individuals but to provide users and teams an overview of existing and missing skills to select the appropriate training. Assessment takers should not prepare or retake the assessment to avoid receiving incorrect recommendations.

Note: BMC AMI Storage Automation was formerly known as MainView SRM Reporting.

## Prerequisites

- NA

## Recommended Trainings

- NA

## Reviewed Skills

- The knowledge around the following topics is checked:
  - Accessing and using BMC AMI Storage Reporting menus and views
  - Setting System Parameters
  - Setting data collectors like HSM Collector, Application Collector, Space Collector, and Performance Collector.
  - Using reporting functions for Tape reporting, DFHSM reporting, Space management, Performance Reporting, and Batch Reporting.

## Getting Started

- Step 1: Register for the skills assessment. The skills assessment is free of charge for all customers and partners.
- Step 2: Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.
