BMC AMI Command Center for Security 6.x: Fundamentals Skills Assessment for System Programmers

bmc

ABSTRACT

Skills Assessment Code: ASCC-SKILL-FSP602

Modality	Duration	Applicable Versions	Target Audience
Online – Non-Proctored	2 Hours	6.x	• CISO • SIEM • Security Officers

Purpose of Skills Assessment

BMC AMI Security automatically protects, detects, and responds to threats on your mainframe. As a virtual security expert, it uses out-of-the-box policies to harden the mainframe environment against vulnerabilities, insider threats, and data theft. Actionable insights help incident responders investigate and close the window of opportunities for hackers.

BMC AMI Command Center for Security provides dashboard views, SIEM correlation, and text message alerts of security events from z/OS. It integrates RACF, CICS, DFSMS, and Db2 to fight against real-time threats or failed access attempts.

The skills assessment is not an exam meant to test individuals but to provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn´t prepare and retake the assessment to avoid receiving incorrect recommendations.

Reviewed Skills

The knowledge and understanding around the following topics are checked:

- Importance of BMC AMI Command Center for Security
- Features of the Dashboards
- Refresh Rate of each panel of the Dashboard
- Searching and querying message data
- Analyzing messages
- Correlation Threads
- Counters, Devices, Users, Patterns, Custom, Automated Response, and Config+ tabs
- Reports tab
- Network Listener and Forwarder
- System Advisory

Getting Started

Step 1.
Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

Step 2.
Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.
