

TrueSight Cloud Cost Control 11.x: Advanced Administering (ASP)

COURSE ABSTRACT

COURSE CODE

- » ASSR-CCAA-1150-ASP

APPLICABLE VERSIONS

- » BMC TrueSight Capacity Optimization 11.0- 11.5

DELIVERY METHOD

- » Assisted Self-paced (ASP)
 - Student and lab guide as eBook
 - Product community for questions and answers
 - Course recording via WBT
- » Access to instructor for up to 1 hour by appointment (use within 90 days of registration)

VIRTUAL LAB ACCESS

- » Lab Vouchers are issued at course registration time and must be redeemed within 90 days of receipt. Once Lab Voucher is redeemed, 28 days of lab access (portal access) are granted with 6 hours of on-demand lab time to be used. Once the lab time is used, or the 28 days expires, the lab access ends.
- » Click [here](#) for additional ASP virtual lab access information in graphical format.

COURSE DURATION

- » Equal to 1 Day

PREREQUISITES

- » NONE

RECOMMENDED TRAININGS

- » BMC TrueSight Capacity Optimization 11.x: Fundamentals Using
- » BMC TrueSight Capacity Optimization 11.x: Fundamentals Administering
- » BMC TrueSight Capacity Optimization 11.x: Advanced Administering

Course Overview

TrueSight Cloud Cost Control is a cost management solution that helps capacity planners to analyze the current and future costs and utilization of their multi-cloud infrastructure services, providing a single view of the on-premises and public cloud infrastructure expenditures and utilization. It enables capacity planners to track and analyze your current and future infrastructure costs, and easily obtain the cost estimates of running the on-premises resources in the public cloud and thus provides insight and control over capital and operating expenditures.

This assisted self-paced course guides students through the administrative capabilities for TrueSight Cloud Cost Control. At the end of this course, students will develop skills in budgeting, views management and administering capabilities of CCC.

Target Audience

- » Administrators
- » Consultants

Learner Objectives

- » Familiarize with the Cloud Cost Control (CCC) solution
- » Learn the key concepts and terms
- » Perform administrative tasks using CCC solution
- » Visualize, analyze and forecast cloud infrastructure service costs
- » Report cloud cost based on stakeholder and business needs
- » Authorize users to access TrueSight Cloud Cost Control
- » Analyze resources for downsizing services based on usage trends

Course Modules

Module 1: TrueSight Cloud Cost Control Overview

- » Challenges faced by customer
- » Unified Cloud Cost dashboard
- » Value and capabilities of the solution
- » CCC Concepts

Module 2: TrueSight Cloud Cost Control Administering

- » Authorizing users to access CCC
- » Understanding cost-estimation service
- » Workflows for adding cost object
- » Managing the CCC settings

Module 3: TrueSight Cloud Cost Control Use Cases

- » Analyzing the cost of under-utilized compute resources
- » Optimizing costs by reserving AWS instances
- » Different views for costs
