PURPOSE OF EXAM

BMC Helix Operations Management is a SaaS-based solution that covers monitoring, event management, and other ITOM capabilities. It features a modern user experience and automated workflows to streamline monitoring and event management.

The **BMC Certified Associate: Helix Operations Management for Administrators & Consultants 23.x Online Exam** will validate the technical competencies needed to successfully administer the functionality for BMC Helix Operations Management.

Skills Tested

Participants will be tested on their knowledge of the following:

- › Identify roles in BMC Helix Operations Management
- › List the operational features and benefits of BMC Helix Operations Management
- › Access and navigate the BMC Helix Operations Management console
- › Configure Deployment Packages
- › Create Custom Packages
- › Deploy Packages
- › Create policies
- › Configure Event and Blackout Policies
- › Monitor and manage events
- › Create users in BMC Helix Portal
- › Create Groups and Roles and assign permissions
- › Configure Authorization Profile

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
