PURPOSE OF EXAM

Companies implementing BMC TrueSight Operations Management realize full value only when their solution is effectively implemented. To ensure implementations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Expert for BMC TrueSight Operations Management** Certification Exam will validate the technical competencies and implementation methods needed to successfully implement out-of-the-box (OOTB) baseline functionality for BMC TrueSight Operations Management.

Skills Tested

Participants will be tested on their knowledge of the following:

- › Update the TrueSight Operations Management Setup
- › Work with different configuration files
- › Create advanced rules and policies
- › Describe different product integration scenarios
- › Tune the performance of the product
