PURPOSE OF EXAM

Companies deploying and using TrueSight Operations Management realize full value only when their solution is effectively implemented, operated and administrated. To ensure deployments, administration and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate: TrueSight Operations Management 11.x for Consultants Online Exam** will validate the competencies needed to successfully install, administer and operate TrueSight Operations Management.

This exam has been recently updated to the most recent product release 11.3.04.

Skills Tested

Participants will be tested on their knowledge of the following:

- » TrueSight Operations Management product components
- » Installing TrueSight Operations Management components
- » Adding TrueSight Infrastructure Management Server and TrueSight App Visibility Manager as TSPS component
- » Usage of TrueSight console
- » Monitoring Events, Devices, Groups, and Applications in TrueSight console
- » Creating dashboards
- » Working with dashboards
- » Using the TrueSight Infrastructure Management Reports
- » Configuring multitenancy, users, user groups, roles and authorization profiles
