PURPOSE OF EXAM

Companies deploying and using TrueSight Operations Management realize full value only when their solution is effectively implemented, operated and administrated. To ensure deployments, administration and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate: TrueSight Operations Management 11.x for Operators Online Exam** will validate the competencies needed to successfully operate TrueSight Operations Management.

This exam has been recently updated to the most recent product release 11.3.04.

Skills Tested

Participants will be tested on their knowledge of the following:

» TrueSight Operations Management product components
» Usage of TrueSight console
» Monitoring Events, Devices, Groups, and Applications in TrueSight console
» Creating dashboards
» Working with dashboards
» Using the TrueSight Infrastructure Management Reports.

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and also improve their knowledge and skill level to help build proficiency with the solution:

» *TrueSight Operations Management 11.x: Fundamentals Operating*
