› Exam duration is 2 Hours

PURPOSE OF EXAM

Companies deploying and using TrueSight Operations Management realize full value only when their solution is effectively implemented, operated and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate for TrueSight Operations Management** Certification Exam will validate the technical competencies needed to successfully deploy, operate and administer out-of-the-box (OOTB) baseline functionality for TrueSight Operations Management.

Skills Tested

Participants will be tested on their knowledge of the following:

- » Install and configure the TrueSight Infrastructure
- » Configure multitenancy, users, user Groups, and authorization profiles
- » Monitor operating systems, applications, and databases
- » Create monitoring policies
- » Create custom graphs
- » Create custom reports
- » Create views
- » Create SLOs

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and also improve their knowledge and skill level to help build proficiency with the solution:

- » *BMC TrueSight Operations Management 10.x: Fundamentals for Administrators - Part 1 (ILT, VILT, ASP)*
