

BMC Helix Continuous Optimization: Enterprise Education Subscription

COURSE ABSTRACT

CURRICULUM CODE

- » ASSR-ENT-SUBS-BHCO

DELIVERY METHOD

- » Videos
- » Web-based Training (WBT)

Subscription Overview

BMC Helix Continuous Optimization is a SaaS based capacity management solution that gives you insights to optimize the use of your current IT resources and plan for future demands. It collects and analyzes the capacity data and core metrics for CPU, memory, and storage. The capacity management solution, subsequently, provides recommendations for optimizing the collected data. You can model future resource needs and predict what IT resources you will need. The IT infrastructure includes physical, virtual, containers, private cloud, and public clouds.

This subscription provides a deep dive of BMC Helix Continuous Optimization features and capabilities. The demonstrations, videos, and presentation content included in the subscription provide a clear understanding of the features and capabilities of BMC Helix Continuous Optimization and how to leverage them.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

Target Audience

- » Administrators
- » Consultants
- » Capacity Planners
- » Cloud Planner
- » Capacity ETL Client
- » Capacity Operator

Learner Objectives

- » Understand the business solution offered by BMC Helix Portal
- » Use the BMC Helix Portal
- » Use the BMC Helix Continuous Optimization Console
- » Understand domains and entities
- » Create, edit, and delete new users, user groups, and roles in BMC Helix Portal
- » Create, edit, and delete authorization profiles
- » Configure authorization profiles for views
- » Understand metrics and indicators
- » Manage time and entity filters
- » Use tags and bookmarks

Offerings

Sr. No.	Course Title	Description	Duration (mins)	SPT	WBT	CERT
1.	BMC Helix Portal: Overview (WBT)	BMC Helix Portal is a SaaS solution with built-in common services on a microservices-based architecture and a set of integrated BMC Helix products from a single, unified view for an improved end-user experience. In this course, the learners will be guided on how to access BMC Helix Portal, understand user access, and become familiar with various functional areas of the BMC Helix Portal Console.	30		✓	
2.	BMC Helix Dashboards: Overview (WBT)	BMC Helix Dashboards is a SaaS service on the BMC Helix Portal that can be used to create interactive dashboards for your environment. It offers unified reporting and gives you a consolidated view of data from applications across your environment. You can easily create, export, and share interactive dashboards with users within or outside your environment. In this course, the learners will be guided on how to access BMC Helix Dashboards, cross-launch it from various applications, understand the concept of dashboards, panels, and playlists. Also, the multiple options for sharing and scheduling reports will be explained.	60		✓	
3.	BMC Helix Continuous Optimization: Overview (WBT)	This course introduces the learners to the business requirement, features, and benefits of BMC Helix Continuous Optimization. In addition, the course provides an overview of the key capabilities, architecture, and console of BMC Helix Continuous Optimization console. The course also provides an overview of the target user roles that can work on the product.	45		✓	
4.	BMC Helix Continuous Optimization: Fundamentals Working with Domains and Entities (WBT)	This course introduces the learners to domains and entities in BMC Helix Continuous Optimization. In addition, the course provides an overview lifecycle of entities, entity relationships, and hierarchies.	35		✓

COURSE ABSTRACT

Sr. No.	Course Title	Description	Duration (mins)	SPT	WBT	CERT
5.	BMC Helix Continuous Optimization: Fundamentals Authorization Profiles (WBT)	This course introduces the learners to authorization profiles in BMC Helix Continuous Optimization. In addition, the course teaches the students to create, edit, and delete authorization profiles and configure authorization profiles for views in BMC Helix Continuous Optimization	30		✓	
6.	BMC Helix Continuous Optimization: Fundamentals Role Based Access Control (WBT)	This course introduces the learners to user identities and user access. The students will learn to create, edit, and delete new users, user groups, and roles in BMC Helix Portal.	60		✓	
7.	BMC Helix Continuous Optimization: Fundamentals Overview of Metrics and Indicators (WBT)	This course introduces the learners to metrics and metric thresholds. In addition, the course provides an overview of indicators, indicator parameters, and thresholds.	30		✓	
8.	BMC Helix Continuous Optimization: Fundamentals Using Filters (WBT)	This course introduces the learners to filters used in BMC Helix Continuous Optimization. The course enables learners to manage time filters, static entity filters, and dynamic entity filters. In addition, the course demonstrates steps to create, edit, and use time and entity filter.	40		✓	
9.	BMC Helix Continuous Optimization: Fundamentals Using Tags and Bookmarks (WBT)	This course introduces learners to tags and bookmarks in BMC Helix Continuous Optimization. The course enables a learner to create and assign tags automatically with the help of tagging rules. In addition, the course demonstrates the steps to perform various operations related to tags and bookmarks, such as creating, editing, and deleting tags, tagging rules, and bookmarks.	45		✓
