

BMC Helix Continuous Optimization Migration: Essential Subscription

COURSE ABSTRACT

COURSE CODE

- » ASSR-ESSM-SUBS-BHCO

DELIVERY METHOD

- » Videos
- » Web Based Training

Course Overview

BMC Helix Continuous Optimization is a SaaS-based capacity management solution that gives you insights to optimize your current IT resources and plan for future demands. It collects and analyzes the capacity data and core metrics for CPU, memory, and storage. The capacity management solution, subsequently, provides recommendations for optimizing the collected data. You can model future resource needs and predict what IT resources you will need. The IT infrastructure includes physical, virtual, containers, private, and public clouds.

This subscription provides a deep dive into migrating from TrueSight Capacity Optimization to BMC Helix Continuous Optimization. The web-based training courses included in this subscription provide comprehensive details for the migration, including migration overview, planning and post-migration tasks.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

Target Audience

- » Consultants
- » Administrators

Learner Objectives

- » Understand the process of migrating from TrueSight Capacity Optimization to BMC Helix Continuous Optimization
- » List the planning activities required for the migration
- » Explain the process for installing the Remote ETL Engine
- » Download and Run the Migration Toolkit
- » Validate data and perform post migration tasks

BMC Helix Continuous Optimization Migration: Essential Subscription

Offerings

Sr. No.	Course Title	Description	Duration (mins)	ASP	WBT	CERT
1.	BMC Helix Continuous Optimization: Fundamentals Migrating Overview (WBT)	This course provides an overview of migrating from TrueSight Capacity Optimization to BMC Helix Continuous Optimization. Included in this course are the needs and benefits for migrating	30 Minutes		✓	
2	BMC Helix Continuous Optimization: Planning the Migration and Activating (WBT)	This course introduces students to the preparation tasks needing for planning the migration, including defining the data that can be migrated to BMC Helix Continuous Optimization and pre-migration tasks.	30 Minutes		✓	
3	BMC Helix Continuous Optimization: Installing the Remote ETL Engine (WBT)	This course describes the process of installing the Remote ETL Engine and includes details on hardware and supported operating systems, sizing and scalability guidelines for the Remote ETL Engine, steps to install the Remote ETL Engine, and steps to verify the installation.	30 Minutes		✓	
4	BMC Helix Continuous Optimization: Downloading and Running the Migration Toolkit (WBT)	This course describes the process of downloading the migration toolkit, including the pre-requisites for running the Migration Tool, and steps for migrating data from TrueSight Continuous Migration to BMC Helix Continuous Optimization.	30 Minutes		✓	
5	BMC Helix Continuous Optimization: Validating Data and Performing Post Migration Tasks (WBT)	This course provides details on validating ETLs, historical data, and workspace data, using the view analysis tool, configuring users and roles in BMC Helix Portal and resolving SQL data mart issues after the migration.	30 Minutes		✓
