» ASSR-HDOV-2021

PRODUCT RELEASE

» BMC Helix Dashboards

DELIVERY METHOD 🌐

» Web-based Training (WBT)

COURSE DURATION

» 1 hr

PREREQUISITES

» None

Course Overview

BMC Helix Dashboards is a SaaS service on the BMC Helix Portal that can be used to create interactive dashboards for your environment. It offers unified reporting and gives you a consolidated view of data from applications across your environment. You can easily create, export, and share interactive dashboards with users within or outside your environment.

In this course, the learners will be guided on how to access BMC Helix Dashboards, cross-launch it from various applications, understand the concept of dashboards, panels and playlists. Also, the multiple options for sharing and scheduling reports will be explained. They will also become familiar with various functional areas of the BMC Helix Dashboards.

Target Audience

» Users
» Administrators

Learner Objectives

» Navigate through the BMC Helix Dashboards console
» Understand various applications that have the feature of cross launching BMC Helix Dashboards
» List common features
» Describe the roles and permissions
» Describe creating, editing, searching, viewing, and deleting a dashboard
» List the out-of-the-box dashboards
» Describe sharing, exporting, and importing a dashboard
» Configure the general dashboard settings
» Explain Scheduling reports
» Discuss the folder and playlists structure to manage dashboards
