- › Contact your [BMC Education Advisor](#) for help with registration

## PURPOSE OF SKILLS ASSESSMENT

Companies deploying and using TrueSight Capacity Optimization realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC provides technical training based on the current skills levels of product operators, administrators, and consultants.

The **TrueSight Capacity Optimization 20.x: Skills Assessment** is to be taken by customers and partners to check their skills for key product areas **BEFORE** registering for any TrueSight Capacity Optimization trainings. Based on the result analysis, BMC can provide a recommendation on which training courses would fill potential skill gaps. The skills assessment is not an exam and is not meant to test individuals but provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn't prepare and also not retake the assessment to avoid receiving the incorrect recommendations.

## Reviewed Skills

The knowledge around the following topics is checked:

- › Installation and configuration of the product
- › Console elements and their functionalities
- › Generation of analysis, models, and reports
- › Virtualization views and Cloud Cost Control view
- › Data collection and administration
- › Virtual Planner studies

## Getting Started

### Step 1.

Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

### Step 2.

Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.
