› Contact your BMC Education Advisor for help with registration

PURPOSE OF SKILLS ASSESSMENT

Companies deploying and using TrueSight Operations Management realize full value only when their solution is effectively implemented, operated and administrated. To ensure deployments and operations are performed to best practice standards, BMC provides technical training based on the current skills levels of product operators, administrators and consultants.

The **BMC TrueSight Operations Management 11.x: Advanced Skills Assessment** is to be taken by customer and partner to check their skills for key product areas **BEFORE** registering for any TrueSight Operations Management advanced level trainings. Based on the result analysis, BMC can provide a recommendation which training courses would fill potential skill gaps.

The skills assessment is not an exam and is not meant to test individuals but provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn´t prepare and also not retake the assessment to avoid receiving the incorrect recommendations.

This skills assessment is based on the most recent product release 11.3.04.

Reviewed Skills

The knowledge around the following topics is checked:

- » Knowledge Base
- » Events and Adapters
- » Event Groups
- » Event Rules and Policies

Getting Started

Step 1.

Register for the skills assessment. The skills assessment is free of charge for all customers and partners

Step 2.

Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations
