Course Overview

Maintaining high availability and performance of your Oracle database is extremely important in order to maintain high business performance. BMC PATROL for Oracle Database (Oracle KM) helps you to monitor the Oracle database of your environment. BMC TrueSight Operations Management, along with BMC TrueSight Infrastructure Management, allows you to deploy and configure Oracle KM from the TrueSight console. You can then monitor and manage your Oracle database from the TrueSight console. This helps resolve issues before they impact the business.

The *BMC TrueSight Operations Management 10.x: Advanced Training for Oracle KM (WBT)* course familiarizes learners with the Oracle KM workflow, configuring prerequisites, debugging log files, troubleshooting failed configurations, and monitoring the database from the TrueSight console.

Note: Though the course requires basic knowledge of TrueSight Operations Management and TrueSight Infrastructure Management, prerequisites listed in this abstract are the recommendations and not the mandatory prerequisites.
