

BMC TrueSight Operations Management 10.7: Using New Features (WBT)

COURSE ABSTRACT

COURSE CODE

» ASSR-TOWN-1070

APPLICABLE VERSIONS

» BMC TrueSight Operations Management 10.7

DELIVERY METHOD

» Web-based Training (WBT)

COURSE DURATION

» 3.5 Hours

PREREQUISITES

NA

Course Overview

BMC TrueSight Operations Management is an integrated platform that monitors infrastructure and applications from a single interface. It goes beyond monitoring to handle complex IT environments and diverse data streams to deliver actionable IT intelligence. This helps resolve issues before they impact the business.

The *BMC TrueSight Operations Management 10.7: Using New Features (WBT)* course familiarizes the learners with the enhancements that are incorporated in BMC TrueSight Operations Management 10.7.

This web-based course provides an introduction to the new features and functionalities in brief.

Target Audience

- » Administrators
- » Operators

Learner Objectives

- » Understand installation and configuration updates of TrueSight Operations Management 10.7
- » Learn how to deploy a PATROL agent from the TrueSight console
- » Create license usage reports
- » Get an overview of the suppression policy
- » Learn data visualization enhancements of the TrueSight console
- » Understand TSOM integrations with TrueSight Intelligence, TrueSight Pulse, and ITDA
- » Learn enhancements of TrueOps
- » Learn usability and supportability enhancements

Course Modules

Module 1: Installation and Upgrade Enhancements

- » Updated Operating Systems
- » High-Availability Deployment of TrueSight Infrastructure Management
- » Upgrading PATROL Agent Using TrueSight Console
- » Updated Support for App visibility manager
- » Installation of Real End User Monitoring

Module 2: Monitoring Solution Enhancements

- » Deploying Packages to PATROL Agents Using the TrueSight Console
- » PATROL Agent Data Security

- » Force-deploy of Monitoring Solutions
- » Deploy Monitoring Solutions to Multiple PATROL Agent Instances
- » License Usage Reports
- » Instance Suppression Policy

Module 3: Data Visualization Enhancements

- » Data Visualization Using Groups
- » Data Visualization for .NET Framework Applications
- » Data Visualization for Synthetic Transaction Monitoring
- » Data Visualization for Real End User Experience Monitoring
- » Advanced Event Groups, Filters, and Views

Module 4: Integration with Other Products

- » TrueSight Intelligence Integration
- » TrueSight Pulse Integration
- » Support for ITDA 2.7B
- » Discontinued Support for IBRS
- » Introduction to BSR

Module 5: Other Enhancements

- » TrueOps Enhancements
- » Programmatic Interfaces
- » User Preferences
- » Usability and Supportability Improvements
