

BMC BladeLogic Server Automation 8.9: Using New Features (WBT)

COURSE ABSTRACT

COURSE CODE

» AUTO-BSAN-0890

APPLICABLE VERSIONS

» BMC BladeLogic Server Automation 8.9

DELIVERY METHOD

» Web-based Training (WBT)

COURSE DURATION

» 1.0 Hour

PREREQUISITES

» *BladeLogic Server Automation 8.8 Foundation – Part 1 (WBT)*

Course Overview

BMC BladeLogic Server Automation is a leading platform for the management, control, and enforcement of configuration changes in the datacenter. The *BMC BladeLogic Server Automation 8.9: Using New Features (WBT)* course introduces and familiarizes you with the new features and enhancements introduced in BladeLogic Server Automation version 8.9.

BMC BladeLogic Server Automation 8.9 offers Service Aware Patching features like Exclusion Window, Maintenance Window, and Single Deploy Job. This covers all of these features to get you started with BSA 8.9.

BMC Education Services offers learning paths for key roles across industries and organizations. Companies implementing BladeLogic Server Automation realize full value only when their solution is effectively implemented. To ensure implementations are performed to best practice standards, BMC Software maintains a technical certification program.

Target Audience

- » Administrators
 - BMC BladeLogic Server Automation Specialists

Learner Objectives

- » Explain the installation features
- » Explain additional UPI options in silent installation, and UPI default installation, of the console
