

BMC BladeLogic Threat Director 2.x: Fundamentals (WBT)

COURSE ABSTRACT

COURSE CODE

» AUTO-BTDF-0220

APPLICABLE VERSIONS

- » BMC BladeLogic Threat Director 2.2
- » BMC BladeLogic Server Automation 8.9
- » BMC BladeLogic Network Automation 8.9

DELIVERY METHOD

» Web-based Training (WBT)

COURSE DURATION

» 3 Hours

PREREQUISITES

Course Overview

BladeLogic Threat Director extends the power of BladeLogic Server Automation to provide IT operations and security teams with the data that they need to prioritize and remediate threats based on potential impact to the business. Blindspot awareness enables you to quickly identify the areas of your infrastructure that are not being monitored, leaving you exposed.

This self-paced, online course introduces students to BladeLogic Threat Director, where students will learn to set up, provide access to, and establish Service Level Agreements for Threat Director. Through interactive tutorials, product demonstrations, and module level quizzes, students will learn to administer, analyze, and operate BladeLogic Threat Director with the ultimate goal of remediating vulnerabilities in their datacenter environment from within the tool, and observing the impact to the organization.

Target Audience

- » Administrators
 - Users/Operators
 - Security Personnel

Learner Objectives

- » Review the capabilities of Threat Director
- » Integrate Threat Director with BMC Atrium Orchestrator
- » Explain uses of integrating BMC BladeLogic Network Automation with BladeLogic Threat Director
- » Set up a connection to BMC BladeLogic Network Automation
- » Describe what you can do by integrating BMC Discovery with BladeLogic Portal
- » Set up security groups providing access to Threat Director
- » Establish Service Level Agreements (SLAs)
- » Import a scan file
- » Map and enroll Assets
- » Map vulnerabilities to remediation content in BMC BladeLogic Server Automation
- » Analyze the Security and Operator Dashboards
- » View vulnerabilities in different stages
- » Remediate vulnerabilities from within Threat Director
- » Create remediation operations
- » View operation results summaries and details

Course Modules

Module 1: Introduction to BladeLogic Threat Director

- » BladeLogic Threat Director Basics

Module 2: Preparing for BladeLogic Threat Director

- » Integrating with BMC Atrium Orchestrator
- » Support for BMC BladeLogic Network Automation
- » Integrating with BMC Discovery

- » Providing Access to BladeLogic Threat Director
- » Service Level Agreements (SLA)

Module 3: Setting Up BladeLogic Threat Director

- » Importing Scan Files
- » Auto Mapping and Manual Mapping of Assets
- » Auto Mapping and Manual Mapping of Vulnerabilities

Module 4: Using BladeLogic Threat Director

- » Security Dashboard
- » Operator Dashboard

Module 5: Remediating with BladeLogic Threat Director

- » Remediating Vulnerabilities
- » Viewing Operation Status
