BMC Certified Associate: Control-M 21.x for Administrators Online Exam

**PURPOSE OF EXAM**
Companies deploying and using Control-M realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate: Control-M 21.x for Administrators Online Exam** will validate the technical competencies needed to successfully administer and manage the Control-M environment.

**Skills Tested**
Participants will be tested on their knowledge of the following:

» Manage and monitor Control-M components  
» Implement agentless platforms for job execution  
» Configure options related to alerts, usage alerts, email, and STMP  
» Manage and troubleshoot New Day processing  
» Use various Control-M/EM utilities and Control-M/Server utilities to administer the products  
» Implement security options by defining users and roles, and by selecting configuration options  
» Implement user management options through LDAP/Active Directory support options  
» Implement host management and load balancing through host groups  
» Application Pack Deployment  
» Perform and configure job history and version management  
» Implement customization options for Control-M/EM, Control-M/Server, and Control-M/Agent, including setting key system parameters  
» Perform Control-M/EM and Control-M/Server database maintenance  
» Implement Control-M High Availability functionality  
» Implement agent and client deployment  
» Troubleshoot the Control-M environment

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
RETAKE POLICY
» Participants who fail the Certification exam may register and pay for an exam then make another attempt after waiting one week
» Participants are limited to 4 attempts per year

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepare participants to take the Certified Associate exam and also improve their knowledge and skill level to help build proficiency with the solution:
» Control-M 21.x: Fundamentals Using (WBT)
» Control-M 21.x: Fundamentals Administering (ILT, VILT, ASP)

Getting Started

Step 1. Take the recommended courses for the Certified Associate learning path. The last course in the learning path includes one certification exam attempt without further charges. There will be 50% discount on additional attempts of this exam.

OR

If you haven’t taken the recommended courses, purchase the required exam (attempts).

Step 2. Study and prepare for the exam. BMC recommends 6 weeks and also a minimum of [3] months experience with the product before taking the exam.

Step 3. Take and pass the exam.

Step 4. If you have failed the exam, purchase another exam attempt and start at step 2.
