### EXAM DETAILS

## PURPOSE OF EXAM

Companies deploying and using Control-M realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Professional: Control-M 20.x for Consultants Online Proctored Exam** will validate the technical competencies needed to successfully analyze customer concerns and provide solutions with respect to the Control-M environment.

## Skills Tested

Participants will be tested on their knowledge of the following:

- » Control-M Terminology, Architecture, Key Components, and Troubleshooting
- » Jobs and Job Definitions Management
- » Agentless Platforms for Job Execution
- » Alerts, Usage Alerts, Email, and STMP
- » New Day Processing
- » Control-M/EM Utilities and Control-M/Server Utilities
- » Users and Roles Definitions and Configuration
- » User Management Options through LDAP/Active Directory Support Options
- » Host management and Load Balancing Through Host Groups
- » Customization Options for Control-M/EM, Control-M/Server, and Control-M/Agent
- » Control-M/EM and Control-M/Server Database Maintenance
- » Control-M High Availability functionality
- » Agent and Client Deployment
- » Control-M Variables
- » Control and Quantitative Resources
- » SMART Folders
- » Job Templates

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
