BMC Certified Associate: Control-M 9.0.19.x for Operators Online Exam

**Purpose of Exam**
Companies deploying and using Control-M realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate: Control-M 9.0.19.x for Operators Online Exam** will validate the technical competencies needed to successfully operate and monitor jobs in the Control-M environment.

**Skills Tested**
Participants will be tested on their knowledge of the following:

- Basic Control-M operations
- Use different Control-M interfaces for monitoring the jobs in Control-M environment
- Monitor and manage job processing in the Control-M environment
- Use Find functionality to search for jobs in Control-M environment
- Use Neighborhood functionality to find job dependencies
- Use Alerts Monitor to monitor and manage alerts
- Use Control-M MFT Dashboard to monitor the file transfers that happen across multiple platforms
- Use Workload Policy Monitor to monitor the status of associated jobs with a Workload Policy

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
