

BMC Certified Associate: Control-M 22 for Operators Online Exam

[Learning Path >](#)

Certification Code: AUTO-CERT-CMFO922-CA

Modality

Online – Non-Proctored

Duration

2 Hours

Applicable Versions

Control-M 9.0.22.000

Target Audience

- Operators

Purpose of Exam

Companies deploying and using Control-M realize its full value only when the solution is effectively implemented, operated, and administered. To ensure that deployments and operations align with best practice standards, BMC Software offers a robust technical certification program.

The BMC Certified Associate: Control-M 22 for Operators online exam is designed to validate the technical competencies required to successfully operate and monitor jobs within the Control-M environment. This certification confirms that the candidate possesses the foundational skills necessary to manage job workflows, respond to operational issues, and maintain system efficiency using Control-M.

Note: In addition to English, the exam is available in French, German, Italian, Japanese, Korean, Portuguese, Simplified Chinese, and Spanish.

Skills Tested

Participants will be tested on their knowledge of the following:

- Explain Control-M architecture and key concepts
- Describe the different Control-M Roles and their responsibilities
- Monitor and manage job processing definitions in the Control-M environment
- Use the Properties pane to access job details in the Monitoring Domain
- Define Public, Private, and Historical Viewpoints.
- Use Find functionality to search for jobs within a Viewpoint
- Use Neighborhood functionality to visualize job dependencies and relationships
- View and modify prerequisites to control job execution flow.
- Use the Alerts panel to monitor and manage alerts
- Describe Lock Resources, Resource Pools, and Workload Policies

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

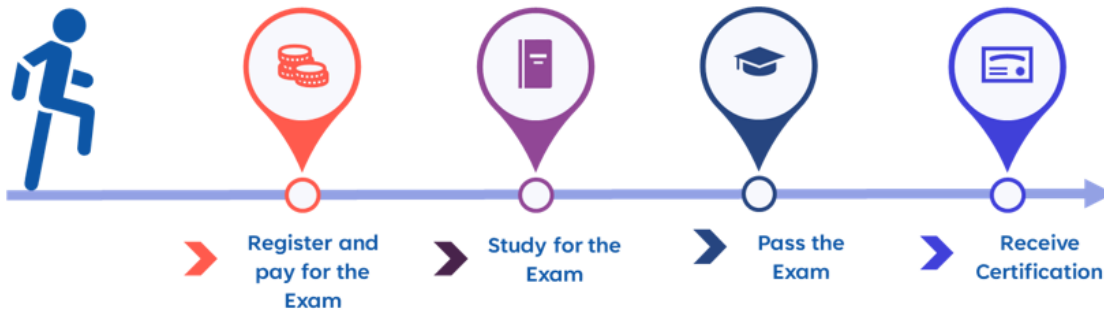

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- Control-M 22: Overview (WBT)
- Control-M 21.x: Comparing Web Interface with Client Interface (WBT)
- Control-M 22: Fundamentals Operating (ILT, VILT)

Getting Started

- Step 1.** Take the recommended courses for the Certified Associate learning path. Purchase the required exam (attempts).
- Step 2.** Study and prepare for the exam. BMC recommends a minimum of 3-6 months of experience with the product before taking the exam.
- Step 3.** Take and pass the exam.
- Step 4.** If you have failed the exam, purchase another exam attempt, and start at step 2.
