PURPOSE OF EXAM

Companies deploying and using Control-M realize full value only when their solution is effectively implemented, operated, and administered. To ensure deployments and operations are performed to best practice standards, BMC Software maintain a technical certification program.

The **BMC Certified Professional: Control-M 20.x for Schedulers Online Proctored Exam** will validate the technical and job scheduling competencies needed to successfully design and manage job flows using the Planning domain in Control-M.

Skills Tested

Participants will be tested on their knowledge of the following:

- › Control-M FileWatcher utility
- › Find and Update feature
- › Global Conditions
- › Advanced features of SMART folder
- › Periodic and Rule-based Calendars
- › Periodic Statistics Definition with Periodic Calendar
- › Dynamic Periodic Statistics Definition
- › Control-M Add-Ons: SLA Management, Forecast, Self-Service

For detailed information around these topics, refer to the course abstract for the recommended course.

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepare participants to take the Certified Professional exam and also improve their knowledge and skill level to help build proficiency with the solution:
