

# BMC Certified Professional: Control-M 9.x Online Proctored Exam

## Certification Brief

### CERTIFICATION NAME

- › BMC Certified Professional: Control-M 9.x Online Proctored Exam

### CERTIFICATION EXAM CODE

- › AUTO-CERT-CTM0918-CP

### APPLICABLE VERSIONS

- › Control-M 9.0.18

### REQUIRED PREREQUISITES

- › BMC Certified Associate: Control-M 9.x for Schedulers Online Exam
- › BMC Certified Associate: Control-M 9.x for Administrators Online Exam

### TARGET AUDIENCE

- › Administrators and Schedulers

### EXAM DURATION

- › 2 Hours

## PURPOSE OF EXAM

Companies deploying and using Control-M realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Professional: Control-M 9.x Online Proctored Exam** will validate the technical competencies needed to successfully schedule and manage jobs in the Control-M environment.

## Skills Tested

Participants will be tested on their knowledge of the following:

- » Install Control-M/Server
- » Establish communication with Control-M/EM
- » Implement agentless platforms for job execution
- » Configure options related to alerts, usage alerts, email, and STMP
- » Manage and troubleshoot New Day processing
- » Implement Control-M Add-Ons
- » Use various Control-M/EM utilities and Control-M/Server utilities to administer the products
- » Implement security options by defining users and groups, and by selecting configuration options
- » Implement user management options through LDAP/Active Directory support options
- » Implement workload management and load balancing through host groups
- » Perform and configure job history and version management
- » Implement customization options for Control-M/EM, Control-M/Server, and Control-M/Agent, including setting key system parameters
- » Perform Control-M/EM and Control-M/Server database maintenance
- » Implement Control-M high availability functionality
- » Implement agent and client deployment
- » Troubleshoot the Control-M environment

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
