

BMC Certified Associate: Helix Control-M for Schedulers Online Exam

Certification Code: **AUTO-CERT-HLFS-CA**

Modality

Online – Non-Proctored

Duration

2 Hours

Applicable Versions

BMC Helix Control-M 21.3

Target Audience

- Schedulers
- Consultants

Purpose of Exam

Companies deploying and using BMC Helix Control-M realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate: Helix Control-M for Schedulers Online Exam** will validate the technical competencies needed to successfully schedule and manage jobs in the BMC Helix Control-M environment.

Skills Tested

Participants will be tested on their knowledge of the following:

- Architecture and its licensing models
- Basic concepts and key terminology within the Control-M solution
- Navigate through the Monitoring domain to monitor jobs and workflows
- Notifications and If-Actions to manage automated job responses Create views
- Purpose and different types of variables used in Control-M
- Purpose and application of Workload Policies
- How Application Plug-ins are used to enhance job functionality
- Create and review a Request Workspace to manage job definition
- Analyze job versions using the Changes History window to track modifications
- How to generate reports using the Control-M Reports facility for data-driven insights
- How to create jobs within a Workspace, including setting job parameters and dependencies
- Manage workspace, folder, and job definitions for efficient workflow control
- Utilize different Calendars and scheduling options, including cyclic job scheduling, to optimize job execution timing

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- BMC Helix Control-M: Fundamentals Scheduling (ILT)

Getting Started

Step 1. Take the recommended courses for the Certified Associate learning path. Purchase the required exam (attempts).

Step 2. Study and prepare for the exam. BMC recommends 6 weeks and also a minimum of [3] months experience with the product before taking the exam.
