PURPOSE OF EXAM

TrueSight Server Automation is a leading platform for the management, control, and enforcement of configuration changes in the datacenter. This course is designed for administrators responsible for administering and maintaining the TrueSight Server Automation (TSSA) environment. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Professional: TrueSight Server Automation 20.x Online Proctored Exam** Certification Exam will validate the technical competencies needed to successfully deploy, operate and administer out-of-the-box (OOTB) baseline functionality for TrueSight Server Automation.

Skills Tested

Participants will be tested on their knowledge of the following:

- » TSSA Security
- » Application Release Management (ARM)
- » TSSA Scripts
- » Live Reporting
- » TrueSight Smart Reporting (TSSR) Administering
- » TrueSight Smart Reporting (TSSR) Using
- » TSSA Administration and Architecture
- » Unified Agent Installer
- » TSSA Agents and the Smart Hub

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
