COURSE CODE

» AUTO-CMFU-0920

APPLICABLE VERSIONS

» Control-M 9.0.20

DELIVERY METHOD (\$)

» Web-based Training (WBT)

COURSE DURATION (\$)

» 3 Hours

PREREQUISITES

» None

Control-M 20.x: Fundamentals Using (WBT)

Course Overview

This introductory course is designed to familiarize participants with the functionality of Control-M 9.0.20. The course includes information on how to use the Control-M interface to monitor and manage an environment, including details on how to use Workspaces to create and schedule the job definitions for an environment and Viewpoints to review and monitor job status details.

Target Audience

- » Operators
- » Schedulers
- » Administrators
- » Developers
- » Consultants

Learner Objectives

- » Navigate and perform common functions in the Control-M interface
- » Navigate in the Control-M Web interface
- » Use Workspaces to organize job definitions
- » Create basic job definitions
- » Define basic job scheduling criteria
- » Create and use job calendars
- » Define job and folder parameter settings
- » Specify dependencies between job definitions
- » Specify post-processing actions and notifications for job definitions
- » Use of Viewpoints for the monitoring of a Control-M environment
- » Create and apply filters to customize the content of a Viewpoint
- » Perform various actions on jobs, including modifying job properties, rerunning a job, or confirming a job
- » Use analysis functionality to control and analyze job flow
- » Order jobs from Control-M
