

Control-M 20.x: Fundamentals Workload Change Manager Administering (ASP)

COURSE ABSTRACT

COURSE CODE

- » AUTO-CMWC-0920-ASP

APPLICABLE VERSIONS

- » Control-M 9.0.20.200

DELIVERY METHOD

- » Assisted Self-paced (ASP)
 - Student and lab guide as eBook
 - Product community for questions and answers
 - Course recording via WBT
 - Access to instructor for up to 0.5 hours by appointment (use within 90 days of registration)

VIRTUAL LAB ACCESS

- » Lab Vouchers are issued at course registration time and must be redeemed within 90 days of receipt. Once Lab Voucher is redeemed, 28 days of lab access (portal access) are granted with 6 hours of on-demand lab time to be used. Once the lab time is used, or the 28 days expires, the lab access ends.
- » Click [here](#) for additional ASP virtual lab access information in graphical format.

COURSE DURATION

- » Equal to 1 Day

PREREQUISITES

- » None

RECOMMENDED TRAINING

- » Control-M 20.x: Fundamentals Using (WBT)
- » Control-M 20.x: Fundamentals Operating (ILT/ASP)
- » Control-M 20.x: Fundamentals Scheduling (ILT/ASP) OR Control-M 20.x: Fundamentals Administering (ILT/ASP)

Course Overview

Control-M Workload Change Manager helps to create a structured workload change process. It centralizes job flow management and improves service delivery. It gives users the ability to quickly build and modify workflows that adhere to enterprise-defined standards that are automatically enforced. Workload Change Manager provides a web interface for defining and modifying job flows.

This assisted self-paced training presents the features and functionalities of Control-M Workload Change Manager. It provides an overview of the life cycle of a change request along with hands-on labs that will help learners to define, review, and approve Workload Change Requests. Learners can practice the steps to create and update job flows in Control-M Web, manage user views and user authorization, create site standards for multiple environments, and promote rules. They also get an insight of how Workload Change Manager can be integrated with a Change Management System.

Target Audience

- » Administrators
- » Consultants
- » Schedulers

Learner Objectives

- » Provide an overview of Workload Change Manager
- » Explain the architecture and workflow of Workload Change Manager
- » Describe the various users and roles that use Workload Change Manager
- » Assign Site Authorization and Folder Authorization to a user/role
- » Create a User View
- » Define jobs and folders using Control-M Web as an Application user
- » Track changes in a request Workspace status after defining, submitting, returning, or approving it
- » Create a Site Standard and apply it to a folder
- » Explain integration of Workload Change Manager with a Change Management System
- » Create a Promotion rule and a Promotion environment
- » Promote a Workspace from one environment to another
