» Instructor-led Training (ILT)

### COURSE DURATION

» Equal to 1 Day

### PREREQUISITES

» None

### RECOMMENDED TRAININGS

- » Control-M 21.x: Fundamentals Using (WBT)
- » Control-M 21.x: Fundamentals Operating (ILT)
- » Control-M 21.x: Fundamentals Scheduling (ILT) OR Control-M 21.x: Fundamentals Administering (ILT)

## Course Overview

Control-M Workload Change Manager helps to create a structured workload change process. It centralizes job flow management and improves service delivery. It gives users the ability to quickly build and modify workflows that adhere to enterprise-defined standards that are automatically enforced. Workload Change Manager provides a web interface for defining and modifying job flows.

This one-day instructor-led course presents the features and functionalities of Control-M Workload Change Manager. It provides an insight into its architecture and installation process. It provides hands-on labs that will help learners create a new workplace and new job/folder in Control-M web. Learners can practice the steps to create, edit, and apply a Site Standard to a folder. They also get an insight to add Site Standard Rules, define Site Standard Policies, and set Site Standard enforcement.

## Target Audience

- » Administrators
- » Consultants
- » Schedulers
