CONTROL-M

Control-M SaaS: Using If-Actions (WBT)

Learning Path >

Course Code: AUTO-CSIA-2023

Modality	Duration	Applicable Product	Target Audience
Web-Based Training (WBT)	15 Minutes	Control-M SaaS	• Schedulers

Course Overview

Control-M SaaS is a workload automation solution that enables you to automate and schedule your business workflows across various platforms. It helps you to control various processes, called jobs, in an automatic and organized way.

Note: BMC Helix Control-M is now known as Control-M SaaS.

This course will explain how If-Actions execute post-processing steps based on conditions such as job status, variable values, or return codes. It will also describe how these actions can trigger tasks like sending notifications, rerunning jobs, or ordering new jobs.

Note: In addition to English, the textual content of this course is available in French, German, Italian, Japanese, Korean, Portuguese (Brazil), Simplified Chinese, and Spanish (Mexico).

Recommended Trainings
- Control-M 22: Overview (WBT)
- Control-M 22: Concepts for Operators and Schedulers (WBT)
- Control-M 21.x: Comparing Web Interface with Client Interface (WBT)

Learning Objectives
- Describe the purpose of If-Actions
- Explain about If triggers
- Explain the Actions in response to an If trigger
