

Control-M SaaS: Using Lock Resources (WBT)

[Learning Path >](#)

Course Code: AUTO-CSLR-2024

Modality	Duration	Applicable Product	Target Audience
Web-Based Training (WBT)	15 Minutes	Control-M SaaS	<ul style="list-style-type: none"> Schedulers

Course Overview

Control-M SaaS is a workload automation solution that enables you to automate and schedule your business workflows across various platforms. It helps you to control various processes, called jobs, in an automatic and organized way.

Note: BMC Helix Control-M is now known as Control-M SaaS.

In this course, learn to efficiently manage job executions with shared and exclusive lock resources to optimize workflow automation and prevent resource conflicts.

Note: In addition to English, the textual content of this course is available in French, German, Italian, Japanese, Korean, Portuguese (Brazil), Simplified Chinese, and Spanish (Mexico).
